Add

STEP 05 · PAIR

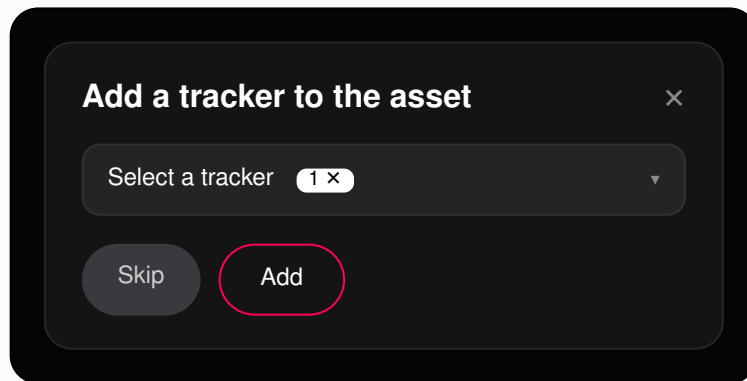

Select a tracker for the asset

- You can create as many assets as you need and come back later to choose the tracker.

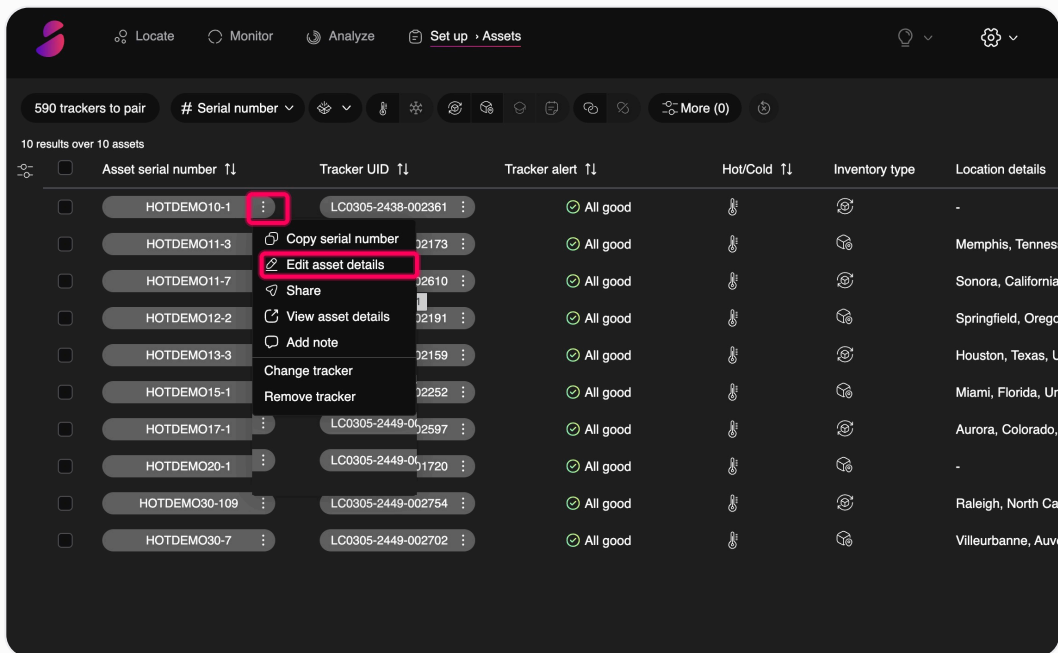

STEP 06 · CONFIRM

Click “Add” to finish

STEP 07 · MANAGE

Find and edit your asset

- You can edit your asset information from this button (the  menu).

That's it — your **asset is live.**

Your new asset now appears in the Assets list. Once a tracker is paired and sends its first transmission, you can also find the asset on the Locate map.

THE 7 STEPS AT A GLANCE

- 1 Open **Set up** › **Assets**
- 2 Click **Actions** → **Add asset**
- 3 Set the **Autoclavable** option
- 4 Enter the required info and click **Add**
- 5 Select the **tracker** to pair
- 6 Click **Add** to finish
- 7 Find your asset marked **All good**
